

## High Capacity Slimline Multideck

### CHARACTERISTICS

- A range of self contained illuminated chilled display units particularly suited to sandwich and cold drink sales.
- A choice between four or five glass shelves.
- The depth of the slimline multideck is 555mm compared to the chilled and tall multideck, which are 655mm.
- This display maintains pre-chilled food at a regulated temperature.
- The range includes both narrow and wide-bodied versions, which accept either two or three standard sandwich packs across the width of each shelf.
- The displays incorporate their own base units and are supplied unfinished and ready to build into a shop-fitted wall unit or front counter.
- The displays have an easily cleaned polished stainless steel interior with fully adjustable toughened glass shelves.
- Condensate is automatically evaporated eliminating the need for site drainage.
- Condensing unit mounted integrally. Designed for air in customer side and air out at rear. Non-standard airflows are available.
- Overall sizes (see table) are for standard units only and do not include any optional extras.
